LETTER TO THE GOVERNMENT

Date: 16th July 2026

Ref: OPTIEYE/VARLITE/2026/001

To,

The Hon'ble Minister-in-Charge
Department of Sports
Government of West Bengal
Kolkata, West Bengal – 700001

Through,

The Principal Secretary
Department of Sports
Government of West Bengal
Kolkata, West Bengal – 700001

**Subject: Proposal for Deployment and Support of OptiEYE VAR Lite –
India's First Affordable AI-Assisted Football Video Assistant Referee System**

Respected Sir/Madam,

We are pleased to present **OptiEYE VAR Lite**, India's first indigenous, affordable, and AI-assisted Video Assistant Referee (VAR) system, specially designed to bring fairness, accuracy, and transparency to football at every level – from grassroots to professional leagues.

As passionate contributors to the growth of Indian football, we have developed this system with the vision of making advanced referee technology accessible to State Associations, Clubs, Academies, and Tournaments, which cannot currently afford the high cost of traditional VAR systems.

We believe that with the support and encouragement of the Department of Sports, Government of West Bengal, **OptiEYE VAR Lite** can be successfully piloted, implemented, and scaled across the state and set a benchmark for the entire nation.

We humbly request an opportunity to present a live demonstration of our prototype and discuss a pilot project in detail.

We look forward to your valuable guidance and support in our mission to make Indian football stronger, fairer, and future-ready.

Yours faithfully,

Rouhin Ganguly

EXECUTIVE SUMMARY

OVERVIEW

OptiEYE VAR Lite is India's first indigenous, affordable, and AI-assisted Video Assistant Referee (VAR) system designed specifically for football. It aims to ensure fair play, reduce human errors, and bring transparency to refereeing decisions without the high cost of traditional VAR systems.

This innovative solution is tailored for Indian conditions and built to support State Associations, Clubs, Academies, and Tournaments at all levels.

OBJECTIVE

- ✓ To provide an accurate, real-time, and cost-effective referee assistance system.
- ✓ To empower referees with AI-driven insights for critical match decisions.
- ✓ To make advanced VAR technology accessible to every league and tournament.
- ✓ To promote fairness, player safety, and the growth of football in India.

KEY FEATURES

AI-ASSISTED DECISION SUPPORT

Advanced AI algorithms assist referees in detecting critical match incidents.

REAL-TIME ANALYSIS

Instant replay, frame-by-frame analysis and alerts for faster and accurate decisions.

HIGH ACCURACY

Multiple camera angles and smart tracking ensure precise detection of incidents.

COST-EFFECTIVE

Indigenous technology that is affordable and sustainable for Indian football ecosystem.

EASY INSTALLATION & USER FRIENDLY

Simple setup, minimal infrastructure requirement and easy to operate.

SCALABLE & FUTURE READY

Designed to grow with Indian football and integrate future AI advancements.

BENEFITS FOR THE FOOTBALL ECOSYSTEM

FAIR PLAY

Ensures justice and fairness in every match.

INCREASED CONFIDENCE

Players, coaches and referees can focus on the game with confidence.

IMPROVED QUALITY

Enhances the overall standard of football competitions.

WIDER ACCESSIBILITY

Makes advanced VAR technology accessible to all levels of football.

TRANSPARENCY

Builds trust among teams, officials and spectators.

GROWTH OF FOOTBALL

Strengthens the foundation of Indian football for the future.

OUR VISION

To revolutionize Indian football by making world-class referee assistance technology affordable, accessible, and indigenous.

FAIR GAME. STRONGER GAME. BRIGHTER FUTURE.

HOW OPTIEYE VAR LITE WORKS

TECHNOLOGY HIGHLIGHTS

INDIGENOUS AI ALGORITHMS

Developed in India for Indian football conditions and requirements.

AFFORDABLE SOLUTION

Significantly lower cost compared to traditional VAR systems.

REAL-TIME PERFORMANCE

Ultra-fast processing ensures minimal delay and smooth match flow.

MINIMUM INFRASTRUCTURE

Requires minimal setup and can be deployed in most stadiums.

HIGHLY SCALABLE

Suitable for leagues, tournaments, and grassroots football across India.

DATA SECURITY

All data is encrypted and stored securely as per best practices.

WHY OPTIEYE VAR LITE IS UNIQUE

MADE FOR INDIA

Designed and developed indigenously understanding Indian football ecosystem.

COST EFFECTIVE

Affordable pricing makes advanced technology available to all.

EASY DEPLOYMENT

Quick setup, simple integration, ready to use.

SUPPORTS ALL LEVELS

From local clubs to state leagues and tournaments.

INDIAN SUPPORT TEAM

Dedicated technical support and training by Indian experts.

FUTURE READY

Built to evolve with AI advancements and football's growing needs.

HARDWARE & INFRASTRUCTURE REQUIREMENTS

OptiEYE VAR Lite is built on high-performance, broadcast-grade hardware to ensure accurate, reliable and real-time video review operations for football matches.

01

CENTRAL VAR SERVER ARRAY

- 2x High-Performance Servers (Main + Backup)
- AMD Ryzen 9 Processor
- Nvidia RTX 4090 GPU
- 128GB RAM
- High-Speed SSD Storage
- Redundant Backup Architecture for uninterrupted operations

02

TACTICAL CAMERA ARRAY

- 6x Blackmagic Studio Camera 4K Pro G2
- Professional stadium tripods
- Broadcast quality lenses
- Multi-angle coverage for complete pitch monitoring

03

VAR DISPLAY MATRIX

- 6x 27-inch 4K Monitors
- Dedicated display for every camera feed
- Real-time multi-view monitoring for VAR operator team

04

RRA PITCH-SIDE TERMINAL

- 1x Pitch-side 24-inch daylight-readable broadcast monitor
- Protective mobile casing
- Instant replay access for match officials

05

FIBER & CAPTURE ROUTING

- Blackmagic DeckLink 8K capture cards
- Enterprise-grade SDI/optical fiber stadium cabling
- Ultra-low latency & high-bandwidth video transmission

06

PRO REFEREE COMM SYSTEM

- Full-duplex encrypted wireless headset system
- Crystal clear audio communication between referee & VAR team

SOFTWARE & PROCESSING INFRASTRUCTURE

Powered by advanced software platforms to deliver ultra-fast,
accurate and reliable video review & decision support.

PAGE 06

01. REPLAY ENGINE

Instant replay with slow motion,
frame-by-frame advance,
zoom, and marker tools.

02. AI DECISION SUPPORT

AI-powered detection & tagging
for offside, ball tracking,
events and key incidents.

03. VIDEO SYNCHRONIZATION

Frame accurate multi-camera
synchronization for perfect
review from every angle.

04. DATA MANAGEMENT

High-speed storage, secure
data handling and seamless
recording management.

05. REPLAY TOOLS

Advanced tools for drawing,
measurement, virtual lines,
highlight clipping and export.

POWERFUL REPLAY ENGINE

PROCESSING WORKFLOW

VIDEO PROCESSING

- ✓ Real-time encoding & decoding
- ✓ Low latency processing pipeline
- ✓ 4K/HD multi-stream handling
- ✓ Color correction & enhancement

MULTI-VIEW MONITORING

- ✓ Custom multi-view layouts
- ✓ Live switching between angles
- ✓ Quick access to key cameras
- ✓ Operator friendly interface

EVENT & TAGGING SYSTEM

Events	Time	Type	Event Name	Camera	Status
Offside	12:54:15	Offside	Player Offside	CAM 2	Reviewed
Foul	12:56:42	Foul	Serious Foul	CAM 3	Reviewed
Goal	12:58:11	Goal	Goal Scored	CAM 1	Completed
Goalie	12:40:05	Penalty	Penalty Awarded	CAM 4	Pending
Card	12:41:22	Card	Red Card	CAM 2	Completed

- ✓ Event detection & manual tagging
- ✓ Smart search & filter
- ✓ Timeline based navigation
- ✓ Complete match event log

SECURE DATA STORAGE

- ✓ High-speed RAID storage
- ✓ Automatic backup & redundancy
- ✓ Encrypted data protection
- ✓ Long-term match archive

HIGHLIGHT & CLIP MANAGEMENT

- ✓ Instant clip creation
- ✓ Highlights export (USB / Cloud)
- ✓ Shareable format
- ✓ Quick access to key moments

TOOLS & ANALYTICS

- ✓ Offside lines & virtual drawing
- ✓ Distance & angle measurement
- ✓ Heatmap & movement analytics
- ✓ Data driven decision support

VAR CONTROL ROOM & REFEREE REVIEW AREA

Ergonomic, efficient and distraction-free environment
for accurate review and decision making.

VAR CONTROL ROOM

A fully equipped VAR Control Room designed for real-time monitoring, analysis and communication. All critical match angles are available at the operator's fingertips.

MULTI-VIEW MONITOR WALL

Up to 24 live feeds with custom layouts and instant switching.

REPLAY CONTROL CONSOLE

Ergonomic control panel for clipping, slowing, drawing & playback.

VAR OPERATOR WORKSTATIONS

High performance PCs with dual monitors and professional software.

COMMUNICATION SYSTEM

Clear and secure audio with on-field referee and RRA.

DATA & SYSTEM MONITORING

Real-time system health, recording status and storage monitoring.

AMBIENT DESIGN

Low glare lighting, sound insulated walls and ergonomic furniture.

REFEREE REVIEW AREA (RRA)

A comfortable and private space where the on-field referee reviews key incidents on a large screen with high clarity.

LARGE 4K DISPLAY

High resolution 4K display for crystal clear replay review from all critical angles.

CLEAR AUDIO FEED

Dedicated audio from the VAR Control Room for full context during review.

PRIVATE & DISCREET

Ensures minimal distraction and complete focus for the referee.

INSTANT ACCESS

Direct and secure connection to the VAR system for seamless review.

VAR OPERATOR WORKSTATION SETUP

DUAL MONITORS

Main monitor for multi-view and secondary for tools, timeline and data.

SPECIALIZED SOFTWARE

Optimized for speed, accuracy and ease of use.

ADVANCED TOOLS

Slow motion, frame advance, zoom, drawing, masking and clipping.

FAST ACCESS STORAGE

High speed storage for instant replay and archived data.

RELIABLE & SECURE

Redundant systems and secure network for uninterrupted operations.

SYSTEM HIGHLIGHTS

REAL-TIME REVIEW

Decisions in seconds with ultra-fast processing.

ACCURATE DECISIONS

Multiple angles and AI support for maximum accuracy.

USER FRIENDLY

Intuitive interface and ergonomic design.

TEAM COLLABORATION

Seamless coordination between VAR, AVAR and on-field referee.

SECURE & STABLE

Robust network and backup for continuous performance.

FUTURE READY

Scalable architecture with room for upgrades.

SYSTEM ARCHITECTURE & DATA FLOW

A robust, secure and scalable architecture ensuring seamless capture, processing, review and decision delivery.

END-TO-END SYSTEM ARCHITECTURE

ARCHITECTURE FEATURES

- Scalable**
Designed to scale from grassroots to elite tournaments.
- Low Latency**
Ultra-fast processing ensures real-time review.
- Secure & Reliable**
Encrypted data transfer with redundant systems for 100% reliability.
- AI Powered**
Smart detection & automation for faster and accurate decisions.
- Cloud Ready**
Seamless backup, remote access and future integration.
- Cost Effective**
High performance with optimized infrastructure cost.

NETWORK ARCHITECTURE

DATA FLOW PROCESS

- Cameras capture live action in 4K.
- Signals are encoded and ingested into the system.
- AI engine detects events and prepares clips.
- Video is synchronized and made available for review.
- VAR operators analyze from multiple angles.
- Referee reviews incident in the RRA.
- Final decision is communicated to on-field referee.

SYSTEM HIGHLIGHTS

- REAL-TIME PERFORMANCE**
Ultra-fast end-to-end processing
- HIGH SCALABILITY**
Supports single pitch to multi-stadium deployments
- DATA SECURITY**
End-to-end encryption and access control mechanism
- EASY INTEGRATION**
Compatible with existing stadium infrastructure
- REMOTE ACCESS**
Secure remote monitoring and support
- OPTIMIZED COST**
Best performance with minimal operational cost

CAMERA LAYOUT & COVERAGE

Strategically positioned 5 broadcast cameras to ensure complete match coverage and accurate decision support.

360° COVERAGE
Complete field coverage

HIGH ACCURACY
Perfect angles for critical decisions

ZERO BLIND SPOTS
No angle missed, no moment missed

PAGE 09

5 BROADCAST CAMERAS

CAM 1

CENTRE SIDE LINE VIEW
Provides the main, balanced view of the entire pitch.

CAM 2

TEAM A SIDE LINE VIEW (OFFSIDE)
Dedicated offside camera for Team A attacking direction.

CAM 3

TEAM B SIDE LINE VIEW (OFFSIDE)
Dedicated offside camera for Team B attacking direction.

CAM 4

TEAM A BEHIND GOAL (GOAL LINE TECH)
Monitors goal line for accurate Goal / No Goal decisions.

CAM 5

TEAM B BEHIND GOAL (GOAL LINE TECH)
Monitors goal line for accurate Goal / No Goal decisions.

✓ All cameras capture in 4K for maximum clarity and detail.

STADIUM CAMERA POSITIONING

KEY BENEFITS

Complete coverage from all critical angles

Accurate and reliable offside decisions

Goal line technology from both ends

Zero blind spots on the field

High quality 4K video for clear analysis

Real-time feed with minimal latency

Supports fair play and transparency

CAMERA COVERAGE EXAMPLES

CAM 1 CENTRE SIDE LINE VIEW

Wide view for overall match coverage and tactical analysis.

CAM 2 TEAM A SIDE LINE VIEW (OFFSIDE)

Captures offside position for Team A attacks.

CAM 3 TEAM B SIDE LINE VIEW (OFFSIDE)

Captures offside position for Team B attacks.

CAM 4 TEAM A BEHIND GOAL (GOAL LINE TECH)

Goal line monitoring for accurate decisions.

CAM 5 TEAM B BEHIND GOAL (GOAL LINE TECH)

Goal line monitoring for accurate decisions.

COVERAGE SUMMARY

- CAM 1 (Centre Side Line)
- CAM 2 (Team A Side Line)
- CAM 3 (Team B Side Line)
- CAM 4 (Behind Goal - A)
- CAM 5 (Behind Goal - B)

- ✓ 100% Field Coverage
- ✓ Multiple Angle Analysis
- ✓ Accurate Offside Detection
- ✓ Goal Line Verification (Both Ends)
- ✓ Zero Blind Spots

TECHNICAL SPECIFICATIONS

Resolution	4K (3840 x 2160)
Frame Rate	50/60 fps
Transmission	Fiber Optic Network
Latency	< 200 ms
Zoom	Up to 40x Optical
Power	PoE / AC Power

NOTES

- ✓ All cameras are weather protected and IP rated.
- ✓ Fiber connectivity ensures stable and high quality transmission.
- ✓ Cameras are mounted on tripods or fixed positions as per stadium design.

VAR MATCH WORKFLOW

From incident to decision – a seamless process
ensuring fairness, accuracy and transparency.

REAL-TIME

Instant review and
quick decisions

ACCURATE

Multiple angle analysis
for correct calls

FAIR PLAY

Ensures justice and
transparency

EFFICIENT

Optimized workflow
minimizing delays

PAGE 10

VAR DECISION MAKING PROCESS – STEP BY STEP

WHEN DOES VAR INTERVENE?

GOAL / NO GOAL

To check if the goal was scored fairly.

PENALTY / NO PENALTY

To verify penalty or handball incidents.

DIRECT RED CARD

To check serious foul play or violent conduct.

MISTAKEN IDENTITY

To ensure the correct player is penalized.

VAR REVIEW EXAMPLE

VAR CONTROL ROOM SETUP

- Multiple high resolution monitors
- Instant replay systems
- Communication headsets
- High speed data network
- Real-time match feed

ON-FIELD REVIEW (OFR) PROCESS

REFEREE REVIEW AREA (RRA)

- ✓ Located near the halfway line
- ✓ Weather protected structure
- ✓ High brightness monitor
- ✓ Secure communication link with VAR room

KEY BENEFITS OF VAR LITE WORKFLOW

ACCURATE DECISIONS

Reduces human error and ensures correct calls.

IMPROVED FAIR PLAY

Protects the spirit of the game and player integrity.

REAL-TIME EFFICIENCY

Fast and streamlined process with minimal delays.

TRANSPARENCY & TRUST

Builds confidence among players, coaches and fans.

COST EFFECTIVE

Advanced technology with optimized infrastructure cost.

FUTURE READY

Scalable solution ready for future upgrades.

SYSTEM OVERVIEW

OptiEYE VAR Lite is a next-generation, AI-assisted Video Assistant Referee system designed for football matches. It delivers accurate decision support using 5 broadcast cameras, real-time video processing and a user-friendly control system.

- ✓ AI Assisted Video Analysis
- ✓ Multiple Angle Replays
- ✓ Instant Decision Support
- ✓ User Friendly Interface
- ✓ High Reliability & Low Latency

TECHNICAL SPECIFICATIONS

Camera Configuration	5 Broadcast Cameras (1080p / 4K Ready)
Video Resolution	Up to 4K (3840 x 2160)
Frame Rate	50 / 60 fps
Video Processing	AI Assisted Multi Angle Analysis
Transmission	Fiber Optic Network
Latency	< 200 ms
Replay Speed	Real-time, Slow Motion, Frame by Frame
Storage	High Speed SSD Storage
Power Requirement	AC 220V / 50Hz or PoE
Operating Temperature	0°C to 45°C
System Portability	Portable & Modular Design
Setup Time	< 2 Hours
Compatibility	IFAB VAR Protocol Compliant

APPLICATIONS

FOOTBALL MATCHES

Ideal for professional, semi-professional and youth football matches.

TOURNAMENTS

Perfect for leagues, cups and multi-team tournaments.

ACADEMIES

Helps in player development and match analysis.

BROADCAST ENHANCEMENT

Provides high quality replays for broadcasters and viewers.

DEPLOYMENT & SETUP

1

TRANSPORT

Compact and portable equipment in custom flight cases.

2

INSTALLATION

Quick setup with pre-configured hardware.

3

CONFIGURATION

System configuration and camera calibration.

4

READY TO USE

System ready for match with full VAR functionality.

IDEAL FOR INDIAN FOOTBALL

Designed for the unique needs of Indian stadia.. with affordability, portability and performance.

SUPPORTS KEY DECISIONS

- ✓ Goal / No Goal
- ✓ Penalty / No Penalty
- ✓ Direct Red Card
- ✓ Mistaken Identity

CAMERA LAYOUT & COVERAGE

CAM 1

CENTRE SIDE LINE VIEW

Provides the main, balanced view of the entire pitch.

CAM 2

TEAM A SIDE LINE VIEW (OFFSIDE)

WHY VAR LITE MATTERS

FAIR PLAY. ACCURACY. TRUST.

VAR Lite brings technology and transparency to every match, ensuring a level playing field for players, officials and fans.

PAGE 12

FAIR DECISIONS
Reduces human error and ensures justice on the field.

IMPROVED ACCURACY
Advanced technology for precise and reliable decision making.

BUILDS TRUST
Increases confidence among players, coaches, officials and fans.

FASTER RESOLUTION
Real-time reviews with minimal delays in match flow.

FUTURE READY
Scalable and upgradeable solution for the future of Indian football.

THE NEED FOR VAR LITE

- ✓ Human errors can change the outcome of a match.
- ✓ Controversial decisions lead to frustration and loss of trust.
- ✓ VAR Lite ensures fairness, accuracy and transparency.
- ✓ Brings professional standards to all levels of Indian football.

REAL IMPACT ON THE GAME

Correct calls at crucial moments

Better match experience for everyone

Strengthens the integrity of the sport

Supports the growth of football in India

VAR LITE WORKS FOR EVERY LEVEL

YOUTH FOOTBALL
Ensures learning in a fair and encouraging environment.

SEMI-PROFESSIONAL
Improves the quality and credibility of competitions.

PROFESSIONAL LEAGUES
Upholds the highest standards of the beautiful game.

TOURNAMENTS & CUPS
Delivers transparency in every big match.

VAR LITE KEY HIGHLIGHTS

- ✓ 5 Broadcast Cameras for complete coverage
- ✓ AI Assisted Video Analysis
- ✓ Real-time reviews with low latency
- ✓ User friendly control interface
- ✓ Compact, portable and easy to deploy
- ✓ Cost effective solution for Indian conditions
- ✓ Weather protected and stadium ready
- ✓ Scalable and future upgradeable

BENEFITS FOR STAKEHOLDERS

PLAYERS

Play with confidence knowing every decision is fair.

COACHES

Focus on strategy without worrying about wrong decisions.

REFEREES

Make better decisions with technology support.

FANS

Enjoy the game with trust and peace of mind.

ORGANIZERS

Run professional, credible and successful tournaments.

BROADCASTERS

Deliver high quality, engaging and reliable coverage.

OUR COMMITMENT TO INDIAN FOOTBALL

- ✓ Developed and assembled in India
- ✓ Designed for Indian stadium conditions
- ✓ Affordable and sustainable solution
- ✓ Dedicated support and training
- ✓ Contributing to the growth of football in every corner of India
